Work Day at the Masonic Home

Yesterday, May 8, was one of the Annual Work Days at the Masonic Home in Macon. I could not attend, since it was also the day of the Annual Reunion of Tech High School, an event which I work hard on all during the year. Incidentally, PGM Joe Suttles was the featured speaker at the Tech High Reunion. He gave an excellent talk, as usual, and no one went away disappointed.

The group going to Macon from Sandy Springs Lodge included PM Randy Blasch, PM Bill Kayma, PM Tommy Meeks, PM Ben Johnson (there for a meeting) and Tom Kellen.

The group left Atlanta at 6:00 AM and was in Macon at about 8:45 AM after stopping at Shoney's.

The grass always needs to be cut and the walks blown and edged, but our men also worked on putting out mulch around the trees and shrubbery.

The picture at left shows the entrance to the main building, which contains meeting rooms and the cafeteria.

The picture below shows Tommy Meeks, Randy Blasch, Tom Kellen, Bill Kayma and Robert Young, Chairman of the District Deputies. If they don't look tired, it's because they just arrived and haven't yet gotten down to the really serious work.

On the left are WB Leonard Buffington and WB Al Garner, shown at the Macon Work Day.

.Degree Work Rescheduled

The Master's Degree that had been tentatively scheduled for Saturday, May 15, is now rescheduled for **Tuesday, May 25** at our regular dinner meeting. This will give us another needed practice session on May 18. **Update: WB Warren Danner** continues to rest at home, and his badly inflamed arm is now almost completely healed. Warren was able to attend our last regular communication and stayed for the conferring of the Fellowcraft Degree. He continues to be a wonderful inspiration to the rest of us.
